EDUCATION

MSc in Management Engineering – UniMoRe

Curriculum “ICT – Data Management”.

Sep. 2024 – Expected Dec. 2026

Reggio Emilia, Italy

BSc in Management Engineering – UniMoRe

Final thesis: “DDMRP method for production control and planning”.

Sep. 2021 – Apr. 2024

Reggio Emilia, Italy

EXPERIENCE

Manufacturing Intelligence Engineer

Elcam Medical Italy

Mar. 2024 – Present

Carpi, Italy

- Managed and maintained the corporate **Data Warehouse** and databases, ensuring data quality, integrity and availability for operations and business functions.
- Developed and maintained **SQL procedures** and data integration flows supporting reporting, production traceability and performance analysis.
- Designed and implemented **OEE automation**, connecting workcenters via the **OPC-UA** protocol.
- Built interactive **dashboards and reports** with Power BI, Qlik Sense, Grafana and SSRS Report Builder to monitor production and KPIs and support data-driven decisions.
- Automated repetitive tasks with **Power Automate** (notifications, data updates, report distribution), reducing manual work.
- Built a **full-stack HR web application** (JavaScript, Node.js, PostgreSQL) with Excel/CSV ingestion, automated reconciliation, dynamic reporting and an analytics dashboard.
- Developed an **agentic AI system** (Python) with specialized LLM agents querying the data warehouse to analyze orders, KPIs and OEE, orchestrating their outputs into automated management reports; engineered a multi-provider **LLM fallback chain** (Claude, Gemini, Ollama) with retry and anti-cycle resilience.

Production & Planning Assistant (Internship)

Elcam Medical Italy

Sep. 2023 – Mar. 2024

Carpi, Italy

- Supported the operations team with **workcenter scheduling**.
- Generated and managed **Manufacturing Orders** using **Infor M3**.
- Completed the Bachelor’s thesis on **Demand Driven Material Requirements Planning (DDMRP)**.
